

America Limited?

Every year we invest in the Amerika.Reisen domain (America.Travels), a wonderful short brand in German. We publish PR for tourism content. There is no money from the commissioned PR agencies, e-mails to the USA stay unanswered.

A planned trip to the USA in 2019 failed, no ESTA, thanks to the NSA? I run the tour operator GUSReisen. Maybe the US is a failed state, extreme inequality? Americans are very friendly but superficial. They flaunt the military. For how much longer? Now I'm at the ITB, pointless? Nevertheless, I am looking for a conversation. Does that also apply to the representatives of the USA?

Tourism can improve the situation, break down prejudices and meet people. Do only greed for profit and high booking numbers count?

What to do?

- Ideas for the Website Amerika.Reisen
- Sponsoring for my work
- Vouchers
- Roadshows

Thanks.
